

Greetings

We are immensely happy to welcome all of you to the 2nd edition of our WKMT Music Festival.

Everything happening today is mainly thanks to you and the effort you have put in preparing the pieces, making the time to practise, overcoming the obstacles that you found on your way and, most importantly, learning how to fall in love with this amazing art: Music

We have designed this event to be engaging and incorporating of all its participants, audience and performers.

Music is a social phenomenon and in order to honour this main feature is that we have decided to organize a music festival that is not only a three block concert but also a cultural and theme related party.

Burgh House has opened its doors allowing the use of all its premises including gardens and rooms. Please feel free to make yourself comfortable and enjoy this wonderful place in all its dimensions.

We wish you a very happy and relaxed evening which we meant to be both challenging and comforting.

Juan Jose Rezzuto
